## **INSULATION AND VENTILATION**

### **ATTIC INSULATION**

The most common attic insulation found installed in homes today is fiberglass batts or loose fill. It provides an R-Value of 3 to 4 per inch. Fiberglass batt insulation provides better R-Value per inch than loose fill fiberglass.

**Recommended R-Value in an attic today is R-38 to R-49**

**R-32** - \$1.75 - \$4.50 per sq ft

**R-20** - \$.75 - \$2.50 per sq ft

### **ATTIC VENTILATION:**

**Ridge vent:** Retrofit - \$15 - \$20 In ft

**Soffit vent:** Retrofit - \$20 - \$25 In ft

**Gable louvered vent:** \$150 - \$200

**Roof vent:** \$75 - \$175

**Attic vent fan:** \$175 - \$250

### **CRAWL SPACE INSULATION:**

### **CRAWL SPACE VENTILATION:**

How a crawl space is vented is often specific to the individual crawl space and therefore, advice and cost estimates should be obtained from professionals in that field.

*Actual prices can vary significantly depending on the contractor and area you live in. Obtaining at least three actual contractor prices is recommended before making decisions.*
